## DESIGNER JEWELLERY

Introducing Frost Couture, an Irish owned company that can provide an additional income opportunity for your hotel, at no extra cost. We install fully stocked jewellery cabinets into your hotel reception area.

This provides an additional service for your clientele as they can purchase last minute gifts, or, that forgotten pair of cufflinks without the need to leave your hotel allowing them more time to relax and enjoy your hotel facilities.

All items can be purchased from reception. At the end of each month, we will restock the cabinet with a new range of jewellery. All commission is retained by the hotel at source, so no waiting for payment.

## DESIGNER JEWELLERY

We currently display our Frost Couture Jewellery in a large number of hotels nationwide and are delighted with the positive response we have received.

Our jewellery is designed with beautifully intricate craftsmanship using Swarovski crystals. Our collection includes Necklaces, Bracelets, Bangles, Cufflinks, Rings, Earrings, Brooches and Evening Bags.

We always strive to keep up with the latest jewellery designs and trends bringing you new and more exciting collections on a regular basis.
